Appendix B - Listing of Political Contributions Valued at Greater than \$100 made to Political Parties During the Period January 1, 2021 to December 31, 2021	15-49

INTRODUCTION

This report summarizes the financial activities of the Liberal Party, the New Democratic Party, the NL Alliance, and the Progressive Conservative Party for the period January 1, 2021 to December 31, 2021.

Elections NL reviews the financial statements and supporting schedules submitted by political parties on an annual basis to ensure that each party is compliant with the political financing requirements of the Elections Act, 1991. This includes proper record keeping and distribution of contribution receipts, and accurate reporting of the party's financial affairs. Any contributions made to political parties for the 2021 General Election are also included within this report.

In addition, this report also includes recommendations for modernizing the Elections Act, 1991 with respect to the administration of electoral financing provisions, as well as recommendations to enhance trust in the political finance process of election administration.

ELECTION FINANCE COMPLIANCE

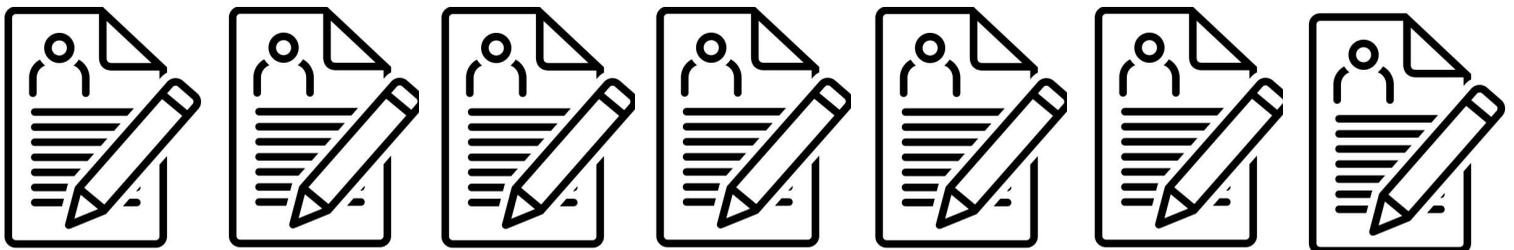

The four political parties registered with Elections NL at the beginning of the 2021 calendar year have filed the required audited financial statements and supporting schedules for the year ended December 31, 2021.

Registered political parties must report their financial affairs in the form of an annual filing of audited financial statements along with supporting schedules as prescribed by Elections NL. **Appendix A** to this report presents a summary of the annual financial statement information provided by the parties for the 2021 fiscal year.

FILING DEADLINE

The deadline for filing of the annual Political Party statements is legislatively set at April 1 of the year following the year to which they relate. The filing deadline for the reporting year was April 1, 2022.

The Liberal Party, the New Democratic Party, and the Progressive Conservative Party each filed their financial information with Elections NL in accordance with the deadline of April 1, 2022. The NL Alliance filed their return on August 24, 2022.

POLITICAL CONTRIBUTIONS

Registered political parties must file with their annual financial statements a listing of contributions received **in the year** that either individually, or in sum, exceeds \$100 together with the name and address of the contributor(s). For the current reporting period this includes any contributions made to the parties during the 2021 General Election.

Appendix B to this report contains a comprehensive listing of contributions to the reporting parties made during the year. This includes funds raised by local district associations and transferred to the political parties. Treatment of these funds is the same as if the contribution was made directly to the party.

This appendix only reports on contributions to each of the political parties, it does not include contributions made to candidates in the 2021 General Election. Contributions to candidates in the 2021 General Election are detailed in the report titled “2021 Provincial General Election Report on Election Finances”. This report is available at <https://www.elections.gov.nl.ca/elections/>

OTHER ELECTION FINANCE MATTERS AND RECOMMENDATIONS

Elections NL is responsible for ensuring candidates and political parties comply with campaign finance regulations. Candidates and parties are conducting modern political campaigns while adhering to finance regulations that are over 30 years old. There are several compliance and policy related issues that Elections NL recommends to enhance the fairness and transparency in political financing activities.

Non-compliance with Time Limit

Currently the Act stipulates that a CFO may be charged \$50 per day that a financial return is not filed, or they may pay to the office a fine of equal value in the absence of being charged. There are several issues with this penalty regime that makes the enforcement challenging for this office.

The first issue associated with this penalty regime is that even after a relatively short time-span, the \$50 per day charge can balloon to a penalty that is not reflective of filing an incomplete or late set of financial records. For example, if a CFO files a set of financial records 30 days late, they are subject to either being charged or fined \$1,500. The more the \$50 per day amount accrues, the more the penalty is no longer reflective of the offense. Elections NL recommends that the penalty should have a cap at a reasonable amount whereby it acts as a deterrent for late or incomplete filing, but also as a penalty that is not financially detrimental to a CFO or Party.

The second issue related with the penalty regime is that the Act contemplates a CFO being charged through the courts. The enforcement of the penalty regime should not be a judicial action.

Recommendation: Elections NL recommends that any penalty should be an administrative action by the office in relation to the filing of financial records. As in the issue above, the penalty continues to be a deterrent, but it does not affect the CFO detrimentally. Having administrative penalties that are capped at a reasonable amount balances the requirement for ensuring financial returns are filed in a timely manner, and that candidates and parties have access to CFOs that might otherwise not accept the financial risk of participating in a campaign.

Penalties

As part of the financial review process for campaigns and political parties, Elections NL may request additional information from a CFO to verify the accuracy of their financial schedules, to satisfy reporting requirements such as donors greater than \$100, or ensure compliance with the finance provisions of the Act. Receiving timely responses from CFOs is key to providing public disclosure and transparency of election financing activities of campaigns and political parties. Section 275 of the Act considers a 30-day period for a response from a CFO, but the Act does not clearly specify what action can be taken if a response is not given within 30 days. Elections NL requires clear administrative penalties to enforce timely responses from political parties and campaigns.

Delays in responding to requests for financial information by campaigns or parties ultimately delay the preparation of the corresponding reports on Election Finances, and thus the timely public disclosure of election financing activities for those events.

Recommendation: Elections NL recommends that the Act should allow for administrative penalties, similar to those proposed for failure to file financial schedules by the deadline. The penalties should be based on the length of time that a request has been outstanding and capped at a certain dollar figure. Having administrative penalties that are capped at a reasonable amount balances the requirement for ensuring requests are returned in a timely manner and functions as a deterrent for failing to respond to queries from Elections NL. The administrative penalties should be clearly applicable to both political parties and campaigns.

Foreign Interference

Foreign interference is an evolving threat to the integrity of elections. Legislation that governs elections must respond to these threats to ensure that trust and integrity is maintained in the political financing of elections. While the Act has low contribution-disclosure thresholds to ensure the transparency of donations, the act does not prohibit the source of those contributions from foreign entities. Further, since the Act does not have a restriction on the monetary amount of contributions from individuals, corporations, or unions, there is a risk that foreign entities could exert influence through large contributions to political parties and candidates in provincial elections. While foreign sources of contributions are generally infrequent in the political financing activities of parties and candidates, without regulation of foreign contributions in the Act the risk of foreign influence will continue to be present.

Recommendation: Elections NL recommends that the Act should prohibit contributions from foreign entities. This restriction should also extend to non-monetary contributions.
