Introduction

The Waterford Valley by-election is the fourth election event that Elections NL has administered in 2024. Elections NL has focused on integrating a new Elections Management System into our operations to modernize both the service delivery of elections to electors, as well as the administrative functions of an election at our District Returning Offices and Headquarters.

Elections NL's new Election Management System allows electors in any electoral district to register or update their registration information with Elections NL using an online portal. Electors may also check to verify that their information is correct and make any changes. This registration portal is available on the Elections NL website at register.elections.gov.nl.ca.

Procedural and Administrative Changes for the Waterford Valley By-Election

Technology

1. Special Ballot Portal

To improve access and efficiency of Special Ballot voting Elections NL used the Election Management System's Special Ballot portal for processing online Special Ballot applications. The portal allows electors to upload identification and complete an online application for a Special Ballot kit. Electors could also apply for a Special Ballot in-person application at the Returning Office or at Elections NL headquarters. Election Officials would also record any in-person application within the Special Ballot Portal, providing real-time information about the volume and status of Special Ballot kits throughout the by-election.

2. Voterview Election Management

For the Waterford Valley by-election Elections NL used VoterView as the Election Management System to support the election administration. VoterView is an online, web-based platform. Users of the election management system include the Returning Officer, district office staff and head office staff. Voterview simplified the management of elector data and streamlined the ability to make corrections to the voters list, providing Elections NL with access to comprehensive election reports that streamline our processes and the allocation of resources to better serve electors in a more timely and efficient manner.

Voterview modernized administrative processes and digitized numerous forms, significantly reducing the amount of paper needed to administer an election event. The Voterview dashboard oversees all aspects of the election event, including locations and polls, enabling Elections NL to identify, anticipate and respond in a timely manner to issues, assuring the seamless delivery of services to electors. The integration of Voterview as Election NL's election management provides more efficient services to electors, candidates, and other stakeholders.

Boundaries and Polling Stations

The number of poll boundaries for the Waterford Valley by-election were the same as those in the 2021 Provincial General Election. There were a total of 40 polling divisions in the district, comprised of 36 regular polling divisions, three Advance Polls and one Special Ballot poll.

A listing of the polling divisions and their boundary descriptions (**Appendix B**), along with a map of the electoral district showing the polling division boundaries (**Appendix C**), are included in this report.

Election Officials

The Returning Officer, who manages the election at the district level, appoints an Election Clerk, an Election Assistant and two Special Ballot Officers. Together, they work in the district Returning Office to help administer the by-election. The Returning Officer is also responsible for hiring and training all election officials for their district. This includes everyone who will work in the polls: Deputy Returning Officers, Poll Clerks, Supervisors, Registration Clerks, Door Attendants, Parking Attendants, Messengers and Witnesses. The Returning Office also hires and trains the Special Ballot Officers who conduct the hospital and personal care home voting.

Candidate Registration and Nomination

At the time of the Waterford Valley by-election there were three registered parties in the province: the Liberal Party, the New Democratic Party and the Progressive Conservative Party. Each of the three registered parties put forth a candidate by the 2:00pm deadline on Thursday, August 1, 2024.

Elector Participation and Registration

The preliminary list of electors for Waterford Valley, certified by the Chief Electoral Officer on July 28, contained a total of 10, 498 registered electors. The list of electors is updated throughout the by-election through revision activities. These include direct communication with electors through our website, e-mail or the Elections NL contact centre, swear-ins during Advance Poll voting, as well as Special Ballot voting opportunities.

Voter Information Cards (VICs) were mailed to each elector on the preliminary list of electors prior to the beginning of the revision period. The distribution of these cards prompted electors to contact Elections NL to verify, update, remove or add their information on the voters list.

A final, revised list of electors was certified on August 17, 2024 and contained 10,508 electors. This list contained all revisions and updates of electors who voted at the Advance Poll and by Special Ballot and was used at all polling stations on Polling Day.

Official Addition of the Votes

In accordance with s. 153 of the Elections Act, 1991, the Official Addition of the Votes must take place three days after polling day. In the case of the Waterford Valley by-election, the Official Addition took place on Sunday, August 25, 2024 at 9:00 a.m. at the Returning Office in the presence of two required witnesses.

During the official addition process, the Returning Officer removes the Official Statement of the Poll sheets from each district ballot box and reviews them to ensure the accuracy of the calculation of vote totals.

The conclusion of the Official Addition of the Votes confirmed the election of Liberal candidate, Jamie Korab.

The official results of the by-election are as follows:

WATERFORD VALLEY	Official Candidates:	Political Affiliation:	Preliminary Count:	Official Results:
	BOLAND , Nicole	New Democratic Party	1027	1027
	KORAB , Jamie	Liberal Party	2067	2067
	WILKINS , Jesse	Progressive Conservative Party	1423	1423
		TOTAL VOTES:	4517	4517

Return of the Writ

Section 163(1) of the Elections Act, 1991 requires a waiting period of 12 clear days between the conclusion of the Official Addition and the return of the writ of election. This provides sufficient time for a candidate, voter, district officer or scrutineer to request a judicial recount. A recount was not requested in the Waterford Valley by-election. As a result, the writ of election was returned to Elections NL on Friday, September 6, 2024 and the Liberal candidate, Jamie Korab, was sworn into office on Friday, September 13, 2024.

Observations and Recommendations by the Chief Electoral Officer

Elections NL did not deploy technology at polling locations in the Waterford Valley by-election. As noted elsewhere in the report, the Elections Act, 1991 is quite prescriptive in how voting may occur in Newfoundland and Labrador, along with significant restrictions on how the administrative procedures should function. While Elections NL was able to pilot technology at the polls in the three preceding by-elections using the legislated paper process in parallel with staff using technology, due to resource constraints in the current by-election, having multiple staff performing duplicate written and digital processes could not be accommodated. The Elections Act, 1991 contemplates that all polling activities are conducted on tangible items such as poll books, paper forms, documents, and lists etc. It does not consider that items such as voters lists, or poll books could be in a digital format and accessible using technology at polling locations.

Without significant and comprehensive changes to the Elections Act, 1991 modern electoral services cannot be incorporated into Elections NL's operational plan for successive elections. Implementing significant changes to electoral legislation, electoral materials, and equipment, and incorporating technology at scale for a general election is a multi-year and likely a multi-election cycle project. Resources and feedback will be needed from multiple stakeholders including government officials and committees, election officials, and political parties to fully incorporate these changes. Elections NL is ready to take the next steps towards modernizing electoral services for electors in Newfoundland and Labrador.
